

WHAT IS YLS?

The Youth Leaders Scholarship (YLS) provides young leaders, who have been nominated by CTAOP Program Partners, with funding, tools, and resources to access tertiary studies and achieve long-term success. YLS was built with the understanding that true lasting change will only come from within communities themselves. CTAOP believes the leaders there are the experts—they are the ones with the vision, the passion, and the true connection to their community. YLS is an investment in those young leaders, their potential as changemakers, and the future they envision.

WHAT DOES THE SCHOLARSHIP COVER?

Room & Board

Laptop & Internet

Tuition & Books

Travel & Transport

Ongoing Mentorship

Leadership Development

WHAT IS UNIQUE ABOUT YLS?

- Scholars are not selected solely on their academic results. YLS focuses on a candidate's all-around potential, leadership experience, and passion for community change.
- All Scholars complete a **Changemaker Project**, to give them practical project management and leadership experience, and to provide an opportunity for them to manifest their passions and enable positive social change.
- CTAOP is responsive and supportive, continuously learning and evolving our approach to ensure Scholars can navigate the challenges they face.

PROGRAM CYCLE

CTAOP Program Partners nominate exceptional and well-rounded young people for the scholarship.

Candidates are shortlisted and then interviewed in person.

CTAOP selects 5 - 10 Scholars annually to receive holistic support throughout their university experience.

Scholars pursue tertiary studies with ongoing mentorship & leadership development.

As Scholars approach graduation, further career and project management support is provided.

Scholars finish their studies with a plan for the future, as well as the confidence and capacity to enable change.

During a program trip in August 2017, Charlize and CTAOP supporters visited one of the organization's Program Partners in the Eastern Cape. During a group discussion, Aya stood up and powerfully declared that she wasn't going to wait around anymore for change to come to her community. Her passionate words were the spark of inspiration for CTAOP's Youth Leaders Scholarship, which launched its first cohort of young leaders in 2019.

"I'm waking up tomorrow & making this happen."

-Aya, Small Projects Foundation
